

Bulk Carriers

Bulk Carriers

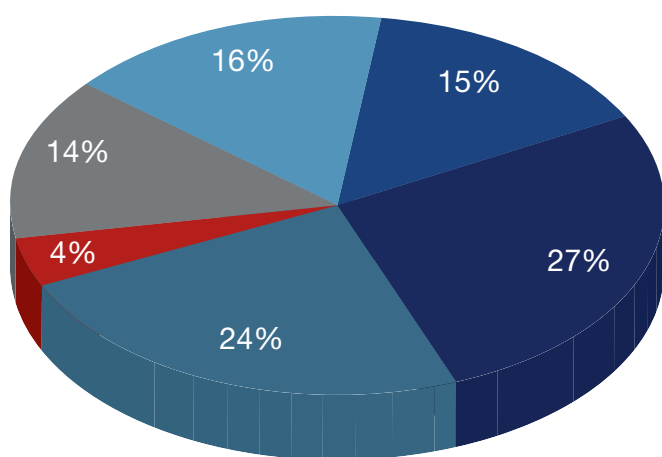

Bernhard Schulte Shipmanagement (BSM) has over 35 years of experience in managing bulk carriers, with specialist capability in the effective maintenance of hatch covers, cargo hold coatings, cranes and ballast tanks.

Over 150 bulk carriers are currently managed by BSM in the transportation of a broad range of cargoes, with carrying capacity up to 400,000 DWT.

Why BSM?

- Extensive experience and proven ability to manage complex projects from original design and newbuild supervision through to comprehensive full management services.
- Excellent RightShip vessel inspection results, ensuring that ships under management are maintained in peak condition throughout their entire life span.
- Full compliance with International Safety Management (ISM) requirements to ensure safe and efficient vessel operation.
- Responsive, regionally based support provided through highly trained and specialised dry cargo fleet teams.

Who we are

BSM is an integrated maritime solutions leader with a strong heritage of more than 130 years in the shipping industry and a trusted partner of responsible and demanding customers worldwide.

Managing a fleet of 600 vessels, our 20,000 employees enable us to deliver safe, reliable and efficient shipmanagement services through a network of wholly owned shipmanagement, crew service and maritime training centres in over 30 locations around the world.

Focused on supporting business partners to achieve their objectives through the application of knowledge, experience and innovation, our commitment to every customer is:

- Maximum vessel availability, safety, reliability and efficiency to achieve higher income at the lowest possible operating cost.
- Protection of reputation through integrity, full compliance and a top quartile safety and performance record.
- Transparency and ready access to vessel information through proprietary 'Customer Web Access' software.
